SUMMARY

Full Stack Developer with 4+ years of experience building production web applications for international clients and a SaaS product team. Works across React, Vue.js, TypeScript, Node.js, and Django, with hands-on experience in AI integrations, subscription payments, real-time features, testing, and AWS deployment.

EXPERIENCE

Freelance Full Stack Developer

Remote | 2022 - Present

Rentalizer ([rentalizer.ai](#)) - Solo Developer

- Built end to end a Node.js/React subscription platform for a real estate coaching business; 500+ paying users.
- Integrated OpenAI with RentCast and AirDNA data for AI market analysis, property recommendations, and Q&A.
- Built AI tools for the coach to send personalized student recommendations; implemented Stripe recurring billing.

TheLookBook.AI ([thelookbook.ai](#)) - Lead Developer

- Led development of a Node.js/React marketplace for models, photographers, and agencies; 100+ paying users.
- Built Stripe subscriptions, booking calendar, Socket.io messaging, and AI casting matches and portfolio feedback.
- Hired and managed a part-time developer: assigned tasks, reviewed code, and coordinated releases with QA.
- Developing the React Native (Expo) mobile version of the platform, extending it with native mobile features.

Across Clients

- Built internal admin dashboards for 3+ clients, including inventory and order management for an apparel brand.
- Wrote Jest and pytest unit tests plus Playwright end-to-end tests for critical flows like auth and payments.
- Deployed apps on Vercel, Render, AWS (EC2, Lambda, S3), and VPS using Docker and GitHub/GitLab CI/CD pipelines.
- Set up Grafana, Prometheus, and Sentry for monitoring and error tracking on every production app shipped.

HQZen

Cebu, PH (Hybrid)

Full Stack Developer

2024 - 2025

Full Stack Developer Intern

2024

- Co-built the scheduling system, a core feature of a time-tracking SaaS used by 1,000+ active users (Django, Vue.js).
- Developed recurring shifts, timezone-aware scheduling, approval workflows, and time-off conflict detection across the Django REST API and Vue.js UI.
- Promoted from intern to full-time in 2 months; joined sprint planning and code reviews on the 8-person core team.

EDUCATION

University of the Philippines Cebu

Cebu, PH

B.S. Computer Science

2025

- Thesis: Machine learning with a focus on smart contracts

SKILLS

Languages: JavaScript, TypeScript, Python, SQL
